Actions in case of missiles flying to Japan

It may take less than 10 minutes that missiles reach Japan after being launched. If missiles are about to hit Japan possibly, J-ALERT system provides emergency information through various devices such as sirens and emails.

1. Evacuate immediately.
2. Collect precise information immediately.

Follow official instruction and take action calmly.

J-ALERT Message 【Example】 *announced ONLY in Japanese

直（ただ）ちに避難（ひなん）。直ちに避難。直ちに建物（たてもの）の中（なか）、又は地下（ちか）に避難して下さい。ミサイルが落下（らっか）する可能性（かのうせい）があります。直ちに避難して下さい。

Evacuate immediately. Go into a building or underground nearby. A missile may reach Japan. Go inside immediately.

When you receive a message,
Stay calm and take action immediately.

Outside

Go into a nearby building or underground,
*a sturdy building if possible
such as underground shopping arcade and subway stations.

Can’t find a building nearby?

Lie flat on the ground or take cover
behind anything that might offer protection.

Inside

Stay inside well away from windows
or stay in a windowless room.

A missile hit in nearby area?

Outside: Cover your nose and mouth with cloth. Evacuate from an impact area. Evacuate toward the windward side or into a sealed room
Inside: Stop a ventilator, close windows and seal cracks of a room.

Look in advance.
